## SKILLS

System Administration

Cloud services

Discretion

Critical Thinking

Scripting/Automation

Photography

## PERSONAL PROJECTS

### IMAGE ENHANCEMENT USING IWT AND STEGANOGRAPHIC DATA EMBEDDING

- We purposed a new image enhancement method for images on the internet. A basic idea of communications with steganographic information-embedded image enhancement scheme is that the high frequency components are embedded in the low frequency components in the encoder, and then the embedded components are utilized to recover enhanced images in the decoder.
